

AYALEW AWOKE BITEW

Electrical And Computer Engineering Graduate

Personal Detail

- ❖ Current address: Addis Ababa, Ethiopia
- ❖ Mobile No: +251 920 931 029
- ❖ Email: ayalewawokebit@gmail.com

Professional Summary

Results-oriented Electrical and Computer Engineering graduate with a strong academic foundation in Electronics, Embedded Systems, Computer Systems, Software Development, and Industrial Technology. Proficient in Python and familiar with digital systems, automation, and technical problem-solving, with hands-on internship experience in Automatic Speech Recognition, system evaluation, and technical documentation. Demonstrates strong analytical, troubleshooting, adaptability, communication, and teamwork skills, with a clear interest in industrial automation, machine systems, maintenance, and manufacturing operations.

Education

- B.Sc. in Electrical & Computer Engineering (Computer Engineering Stream) Debre Tabor University,
- CGPA: 3.84/4.00, Exit Exam: 77.5%
- Graduation: 2026

Skills

- ✓ **Technical:** Electronics, Electrical Systems, Embedded Systems, Automation, Troubleshooting
- ✓ **Programming:** Python, C/C++, Java, SQL
- ✓ **Software:** HTML, CSS, JavaScript, React.js
- ✓ **AI/ML:** Machine Learning, Deep Learning, NLP
- ✓ **Tools:** PyTorch, Hugging Face
- ✓ **Soft Skills:** Problem Solving, Teamwork, Adaptability, Communication

Professional Work Experience

1. Computer Engineering Intern - Information Network Security Administration (INSA) | Dec 2025 – Mar 2026

Major duties and responsibilities

- Developed an Automatic Speech Recognition (ASR) system using Whisper and XLS-R/Wav2Vec2.
- Performed speech preprocessing, model evaluation, and performance analysis to assess system performance.
- Supported AI research activities and prepared technical documentation.

Projects

1. RAG-Based Legal Document Assistant (Bachelor's Thesis)

- Developed an AI legal assistant using Retrieval-Augmented Generation (RAG) and large language models for legal document retrieval and context-aware question answering.

2. Online Ticket Reservation System (Academic Project)

- Developed a web-based ticket reservation system with online booking, user management, and database integration.

Languages

- Amharic — Mother Tongue
- English — Professional Working Proficiency

References

- Available up on request.

CV Update: August 2026

I would like to confirm that the above mentioned information is true.

Sincerely,

Ayalew Awoke
